Smooth, Controlled Stairway Descent
Safe, calm evacuation for all.

Easy to Use
Deploys in seconds.

One-Person Operation
No extra staff required.

Lightweight
Easy to manoeuvre and store.

Why Choose the Evac+Chair 300H?

Evac+Chair 300H

Lightweight. Reliable. Trusted.

Trusted for over 40 years across every sector and setting, Evac+Chair is quick to deploy, easy for a single person to operate, and proven as the fastest means of escape.

Dependable during emergency evacuations and lift failures, it ensures everyone can be safely evacuated - because wherever there's a staircase, there should be an Evac+Chair.

The Benefits of an Evac+Chair

Compliance guaranteed. Safety secured. Evacuation simplified.

With the Evac+Chair 300H, no one is left behind. Staff, visitors, and customers can rely on a fast, safe evacuation every time — because safety is non-negotiable.

Compliance

Ensures you meet fire safety and accessibility regulations.

Inclusivity

Provides equal access to emergency evacuation for everyone.

Reassurance

Gives staff, visitors, and customers confidence that a safe evacuation plan is in place.
