

Cut - Precision Work

DESCRIPTION

CLAW CUT range is a new generation of cut-resistant gloves, created to protect you in the most demanding tasks with a high level of cut resistance (from CUT D to A9) and offer excellent comfort and exceptional dexterity in all working environments (dry, wet and oily).

The CLAW CUT D 700 was designed for precision work in dry and wet environments.

The high gauge 18 together with an exceptionally soft and strong fiber (based on HPPE, recycled polyester and spandex), give a second-skin feel while providing excellent cut protection (CUT D).

The latex palm double coating with sandy finish, being waterproof, provides excellent grip for the most demanding jobs in both wet and dry conditions.

CLAW CUT D 700 is made from recycled polyester and is RCS-certified (11% of total product weight). Sans fibre de verre.

This glove is touchscreen, so you can keep it on while using the touchscreen equipment.

Sanitized treatment: prevents the development of bacteria and odors.

SECTORS

Farming, silviculture and fishing

Heavy & process industries

Wet Environment

The +

COVERPERF DURABILITY: WASHABILITY (performance guaranteed for up to 5 cycles at 30°) for maximum durability
