

### Cut - Precision Work

#### DESCRIPTION

The CLAW CUT range is a new generation of cut-resistant gloves, designed to protect you in the most demanding tasks with a high level of cut resistance (from CUT D to A9) while providing excellent comfort and exceptional dexterity in all work environments (dry, wet, and oily).

The CLAW CUT F 707 model has been designed for fine handling work in dry and wet environments.

The high gauge of 18 combined with an exceptionally soft and strong fiber (based on HPPE, recycled polyester, and spandex) provides exceptional comfort while offering maximum cut protection (CUT F, according to the EN388 standard).

The double-layer latex coating (3/4 smooth + palm with sandy finish), being waterproof, provides excellent grip and a good hold in the most demanding tasks in dry and wet environments.

CLAW CUT F 707 is made with recycled polyester fiber and certified RCS (16% of the total product weight). No fiberglass.

This glove is touchscreen compatible, allowing you to keep it on while using equipment with touch screens.

### Wet Environment

### The +

**COVERPERF DURABILITY: WASHABILITY**  
(performance guaranteed for up to 5 cycles at 30°) for maximum durability  
**CUT F:** Maximum cut protection level (EN388 standard)  
Gauge 18 without fiberglass: Comfort and exceptional dexterity  
Double latex coating (3/4 smooth + sandy finish palm): Excellent grip in dry and wet environments and waterproofing  
RCS: Integration of recycled materials (16%) to reduce environmental impact  
HOT 1: Contact heat protection 100°C / 15 sec.  
Touchscreen compatible  
Sanitized
